BACK TO SCHOOL SAFETY

With the start of a new school year just around the corner, empower your kids with the knowledge and skills they need to stay safe on their way to and from school.

- 1.) Teach the importance of using crosswalks when crossing the street, remind them to look both ways and wait for the signal before stepping off the curb. Encourage them to make eye contact with drivers to ensure they are seen.
- 2.) Encourage your children to wear bright or reflective clothing, especially during early morning or evening walks. Being visible to drivers can significantly reduce the risk of accidents.
- 3.) Teach your child to obey traffic signals and signs, including pedestrian crossing signals. Green means go, but only when it's safe to do so!
- 4.) Remind students to put away electronic devices and remove headphones while walking. Distractions such as texting or listening to music can prevent them from paying attention.
- 5.) Encourage your child to watch out for their friends and classmates while walking to and from school. Remind them that safety is a team effort.
- 6.) For students who ride bicycles to school, reinforce the importance of wearing a properly fitted helmet and following the rules of the road. Remind them to ride with traffic, obey traffic signals, and use hand signals to indicate turns.
